Profile

- I am a passionate Front-end Developer with 2+years experience at Implementing complex front-end applications from scratch using dynamic user experience designs and JavaScript framework [HTML, CSS, Bootstrap, JavaScript, React.js].
- I create visually appealing and responsive designs for front end web applications.
- I am seeking a Front-end web developer role that allows me to utilize my skills and creative knowledge to build amazing user experiences.
- Get to know more about about me in my portfolio website, link is above👉.

Projects

02/2021 – PRESENT

Front-end web developer Personal

- Portfolio website: developed responsive and interactive website using HTML, CSS and JavaScript, resulting in improved user experience and engagement. The website helps to show my skills and completed projects.
- Football app: I built this live football streaming app using bootstrap and JavaScript, it is a functional app.
- Birthday app: using React.js I built a birthday reminder app, it helps to keep track of saved birthdays by users.
- Calculator app: built this calculator app with pure JavaScript which helps to solve majority of mathematical problems.
- I have built more custom websites and apps which are included in my portfolio website.
